Work in Finland

Give it a try, you won't be disappointed!

Who we are

- A professional cleaning company offering industrial machine cleaning for larger corporate customers.
- The leading cleaning company in Coastal Ostrobothnia, 125 co-workers and counting. The average age of our co-workers is 27 years and 90% are women.
- Full digital company. We have our own apps for running the show.

Why are we recruiting from EU?

The actual unemployment rate in our region of Finland is zero.

We are a growth company and in order to grow we'll need more co-workers. We grow consistently with 10% each year in average.

We already have employees from different EU-countries and a good experience in hiring English speaking people.

What we offer

- Full time work with an ongoing contract (trial period of 4 months) – not just a summer job.
- A local guide who helps you with setting up your life on site (registering in Finland, bank account, taxes).
- As an EU citizen you're entitled to the full range of Finnish social security benefits after 6 months of work. Including free education, for example language courses or an English business education here in Pietarsaari (check out www.centria.fi).
